EXPERIENCE

College Based Project   February 2023 - May 2023
Jamia Millial Islamia, New Delhi   *New Delhi, India*

- I created a website for a College canteen using HTML, CSS, JavaScript, SQL, and MySql. The website is user-friendly, interactive, and optimized for all devices. It allows users to browse the menu, place orders, make payments, and view their order history. The database enables efficient management of inventory and order processing.

CERTIFICATES ISSUED BY COURSERA

- [Introduction to Front-End Development](#)
- [Programming with JavaScript](#)

EXTRA-CURRICULAR ACTIVITIES

- During my time in NCC, I participated in various activities that helped me develop valuable skills like discipline, teamwork, physical fitness, and social responsibility. I enjoyed adventure training programs and community service activities that challenged me mentally and physically. These experiences helped me become a more responsible and disciplined individual.

LEADERSHIP

- As a class representative from class 6th to 12th, I learned about leadership and responsibility. I was responsible for maintaining discipline and organizing class events, which helped me develop my organizational and team management skills. It was challenging at times, but it taught me important life lessons and provided opportunities for personal growth and skill development.
